About me

Frontend Developer with corporate web management experience, focused on clean code and translating UI/UX designs into responsive applications.

Work experience

Platform Build Specialist Pliva Hrvatska d.o.o.

07.2023 - present

- Managed corporate websites via CMS, applying HTML/CSS and editing visual materials.
- Conducted QA, UAT, and sanity testing
- Implemented SEO and tracked analytics via custom UTM links and Excel reporting.
- Developed interactive digital content in collaboration with international teams.

Sofascore Frontend Academy

03.2026 - 06.2026.

- Competitive mentorship program simulating a real-world Agile environment
- Worked on a canteen app for employees (React, TypeScript, Zustand, SWR, Panda CSS).

Education

Master of Engineering in Information Technology

09.2023 - present

Zagreb University of Applied Sciences

Erasmus+ exchange

10.2024 - 02.2025.

Cologne University of Applied Sciences

- Module: Digital Sciences (MA)

Projects

Jamnica (Digital Innovation Incubator)

- Designed a youth-targeted digital strategy and consumer experience, presented via a [Figma prototype](#).

FilmStar (Bachelor's thesis)

- [React app](#) for browsing movies and TV shows (Firebase Auth, TMDB API).
